

# THREE THOUSAND ARE KILLED IN LEIPSIG

## WEIMER'S GOVERNMENT IS FORTIFIED BY REVOLT.

Strikes Settled and a Stronger Democracy Assured.

BY WILLIAM C. DREHER.  
(BY CABLE-EXCLUSIVE DISPATCH.)

LEIPSIG, March 21.—Although there have been further collisions which have resulted in many casualties, the situation here is improving and there is a calmer feeling in government circles. There is an increasing number of signs that the Weimer government has tied up all Germany for nearly a week is over. Already the railwaymen have voted in favor of re-opening work and it is expected that transportation will be re-normal conditions in a few days.

On the other hand the Chancellor of the Reich, Herr Brüning, has just issued a decree which will go far toward appeasing the elements and inducing them to get on in some of their demands which the government cannot meet and survive.

Everything indicates that radicalism has now entered a new phase of development that gravely jeopardizes not only the government but the constitution. Apparently Brüning does not fully realize the gravity of the situation and the danger which the government faces.

## PAN-ISLAM UPRISING CONNECTED WITH GERMANY.

War Spreads from Thrace to Arabia; Allies Defied and Attacked.

BY CABLE-EXCLUSIVE DISPATCH.

PARIS, March 21.—The Pan-Islamic revolution is in full blast. The fighting spreads from Thrace through Anatolia to Arabia. Semiofficial French reports assert the Islamic revolt is connected with German agents.

In Thrace the Turkish colonel, Jaffer Tayyar, openly attacks and defies the Allies. Greek troops occupying Thrace face him. In Anatolia Italian troops were hurled back by the sea-board by Mustafa Kemal's troops. The French general, Gouraud, urgently asks for reinforcements. The Journal des Debats says: "Mustapha Kemal's troops, like a number of many of German officers, are thirsting for revenge. The military expedition was started precisely to checkmate the Turkish Nationalist brigades in order to prevent a big war."

Marcel Cachin, Deputy and leader of the Socialists, utters a warning in "Humanite": "Bad news from the Orient. Syria and Cilicia must be defended. But this is not sufficient; Gen. Gouraud demands reinforcements. The military expedition was started precisely to checkmate the Turkish Nationalist brigades in order to prevent a big war."

Marcel Cachin, Deputy and leader of the Socialists, utters a warning in "Humanite": "Bad news from the Orient. Syria and Cilicia must be defended. But this is not sufficient; Gen. Gouraud demands reinforcements. The military expedition was started precisely to checkmate the Turkish Nationalist brigades in order to prevent a big war."

## AMERICA TO STOP ALL FOOD TO GERMAN RIOT DISTRICTS

(BY CABLE AND ASSOCIATED PRESS.)  
LONDON, March 21.—A Berlin dispatch to the Daily Mail says the United States diplomatic representative has informed the German government that it will be impossible for the United States to allow food supplies from abroad to enter any part of Germany where trouble prevails.

The same correspondent says the Communists boast that a Bolshevik uprising is imminent. It is said that Gen. Von Seeckt takes a serious view of the situation and trenches are being dug in the streets of each city district.

A mob of workmen Saturday night attacked an isolated post of government troops in the industrial district and killed officers and men with the greatest cruelty, the dispatch adds. Reinforcements killed twenty workmen and captured twenty-five others, who were stood up against a wall and shot immediately.

## HOOVER FAVORS SUFFRAGE.

California's Candidate is Rapidly Gaining Favor in Eastern Cities.

(EXCLUSIVE DISPATCH.)

WASHINGTON, March 21.—President Wilson has come out squarely for woman suffrage in a letter written to the National Woman's Party in response to a request for a statement as to his attitude toward the enfranchisement of women. The letter is not signed by Mr. Hoover himself, but was sent by his direction over the signature of Edward D. Kneass, his private secretary, as follows:

"Washington, Mar. 4, 1920.  
"Florence D. Barker,  
"National Woman's Party,  
"Lafayette Square,  
"Dear Madam: Mr. Hoover asks me to apologize for the delay in replying to your letter of January 20, which was due to the fact that he has been overwhelmed with work. As to the principal question you raise, although he is not a candidate, Mr. Hoover has always been in favor of woman's suffrage and has the belief that the act of enfranchisement of women into political life would materially raise the whole political plane of the United States. Very truly yours,  
"J. ED. D. KNEASS,  
"Mr. Hoover's Secretary."

MINNEAPOLIS, March 21.—H. P. Wickham, organizer and executive secretary of the Minnesota Equal Rights Association, has been elected to the board of directors of the Kentucky League of Women Voters. A State convention will be held soon to adopt a constitution and bylaws. Two hundred thousand women will be in the Kentucky League.

LEXINGTON (Ky.), March 21.—Members of the Kentucky Equal Rights Association board of directors have started steps to organize the Kentucky League of Women Voters of the State. A State convention will be held soon to adopt a constitution and bylaws. Two hundred thousand women will be in the Kentucky League.

## RIOTING MOBS SHOT DOWN BY GOVERNMENT TROOPS AS STREET FIGHTING CONTINUES

(BY CABLE AND ASSOCIATED PRESS.)

COBLENZ, March 21.—Three thousand persons were killed in the fighting at Leipsig before the government troops captured the town Friday, according to statements made by three American business men who arrived here tonight from Leipsig, which place they left Saturday night.

Up to Wednesday there was strike agitation in Leipsig against the Kapp regime, then anarchy and soviet control until government troops shelled the Volkshaus and labor headquarters Friday afternoon, the Americans say.

Two thousand persons in the building were shot down as they made their exit. The shells set fire to the building, killing hundreds of other persons.

There was a demonstration March 14 in which thirty-six persons were killed. Then the workmen obtained arms and street fighting was heavy until an armistice was arranged Wednesday (March 17) at noon.

The armistice ran until noon Thursday. A Saxon aviator, flying over the city Thursday, was shot down by rifle fire.

The fighting continued from Thursday between the workmen, using rifles and grenades, and the Reichswehr, and loyal volunteers until the Volkshaus was a ruin Friday afternoon. Then the trouble gradually quieted down.

The Americans who brought the details of the fighting are David S. Block of Washington and Irving Giller and Samuel T. Barron of New York.

LONDON, March 21.—The Essen Communists number 10,000 well-armed workers and troops, and the number is increasing steadily, says a Rotterdam dispatch to the London Times. The Communists have at their disposal big guns, armored cars and airplanes.

Communist troops also are in power at Dortmund, Bochum, Bielefeld, Barmen, Hagen, Iserlohn and Hattingen.

EBERT BACK IN BERLIN.  
(BY CABLE AND ASSOCIATED PRESS.)  
COBLENZ, March 21.—President Ebert arrived in Berlin from Stuttgart at 11 o'clock today. The entire Cabinet is in Berlin and began sitting at 2 o'clock.

The Cabinet council deliberated throughout the afternoon to determine the steps necessary to bring Germany back to her position prior to the revolt. This it is believed, will require considerable maneuvering of a delicate handling, for the independent Socialists and the workmen are making heavy demands for concessions.

While the resignation of Gustav Noske, leader of the Defense, has been demanded by the radicals, it is considered probable that he will retain his post a time, at least, to restore the confidence of the Berlin population generally.

It is declared the new Cabinet will include active representation of labor, Carl Rudolph Legien, president of the Federation of Trades Unions, being named for Chancellor.

The state of siege in Berlin and the province of Brandenburg was raised Saturday afternoon, it was announced officially today. The streets of Berlin, for the first time in a week, present a peaceable aspect today.

## BOLIVIANS INCTE PERU.

(BY CABLE AND ASSOCIATED PRESS.)

ORURO (Bolivia), March 21.—There was a great demonstration here last night against Peru. The seal of the Peruvian Consulate was dragged through the streets and demonstrations were made before the homes of Peruvians and before the offices of La Patria, a pro-Peruvian newspaper.

BUENOS AIRES, March 19.—The Bolivian Charge d'Affaires at Lima has visited Chancellor Porras and expressed in the name of his government regret for the manifestations against Peruvians in Bolivia, according to a dispatch to La Nacion from Lima. The Charge stated that the Bolivian government would punish the authors of the demonstrations. Chancellor Porras, the dispatch adds, convened the Chamber of Deputies to notify it that satisfaction had been given by Bolivia.

## HERMAN JOHNSON BUNKO VICTIM.

(EXCLUSIVE DISPATCH.)

WASHINGTON, March 21.—Senator Herman W. Johnson of California was the victim of a double robbery in Minnesota, according to a story being circulated at the capital by some of his associates.

The State organization, the Senator himself asserts, took the national convention delegates from the Californian last Monday and a man of deft fingers relieved him of a roll of bills while he was in the Twin Cities last week.

The Senator carried his money in a wallet in his inside coat pocket. He had his coat off in a barber shop and in a hotel, but he does not recall which it was—in St. Paul or in Minneapolis. And he is not sure whether it was in the barber shop or the hotel where a crook took the wallet out of his pocket, the bills out of the wallet and then returned the wallet to his pocket.

## MEXICANS HACK OIL MAN TO DEATH

(BY A. P. NIGHT WIRE.)

WASHINGTON, March 21.—Details of the killing of Daniel S. Foley, an American, at Los Naranjos, Mexico, were received today in a report from Consul Dawson at Tampico, where the body, showing sixty-three machete wounds, was brought for burial in Houston, Texas, where the first word of the incident was received.

Foley was employed as an oil well driller by an American oil company operating in the Mexican fields. He had trouble with a Mexican, who attacked him with a knife, the report said, and Foley shot and killed his assailant.

The Mexican's friends then attacked Foley, who was surrounded and hacked to death. His family lived in Houston, Texas, where the first word of the incident was received.

## FATAL FIRE IN CONVENT.

(BY A. P. NIGHT WIRE.)

WILKESBARRE (Pa.) March 21.—Sister Marie Teresa, aged 62, mother superior of St. Mary's convent in this city, was burned fatally and five other nuns were seriously injured today when the big convent, the mother house of the Order of Mercy in Northeastern Pennsylvania, was destroyed by fire.

## KNOX TO REVISE HIS RESOLUTION.

Declaration of Peace to be Rewritten for Senate.

No Action is Expected on it for Several Days.

Prediction is that Majority will Favor It.

(EXCLUSIVE DISPATCH.) WASHINGTON, March 21.—While President Wilson is meditating what course he will pursue as a result of the failure of the Senate to ratify the peace treaty he negotiated, the Senate leaders are proceeding with their plans to put through the Knox resolution, declaring peace by repealing the declaration of war.

Senator Knox is ill and may not be back in the Senate for several days, but he hopes to be able to get the resolution before the Senate before the end of the week.

Senator Knox intends to revise his resolution, and the prospect is that it will be a simple resolution repealing the declaration of war.

It is expected that the President will disclose his attitude before the passage of many bills, but whether this will be a step to negotiate a modus vivendi with Germany, a submission of the treaty, or a suspension of all peace negotiations pending the "solemn referendum" on the treaty and the League of Nations in the Presidential election, is still purely a matter of speculation.

If Mr. Wilson is going to content himself with taking the issue into the campaign his first task will be to swing the Democratic party in line for the league without reservations.

That will tax his genius for leadership, for the Democratic party is split on the question of reservation and there is a widespread feeling among Democrats that the party will only court disaster by endorsing the league without change.

HOUSE TO ACT. Representative Fred A. Britten of Chicago will introduce in the House tomorrow a bill providing for the establishment of a separate peace between the United States and the governments of Germany and Austria.

The bill also authorizes the creation of an European trade council (consisting of the President, who shall be ex-officio president of the council, and the secretaries of Commerce, Labor, Treasury and State departments), to study and report to Congress a plan for securing the resumption of commercial intercourse with European nations.

Twenty thousand dollars is carried in the bill for general expenses of the council in its preparation and study of existing conditions and view to recommending to Congress legislation which will provide not only suggestions for natural trade resumption, but also a definite plan for financing European credits through the Federal reserve banking system pending such time as the exchange value of foreign money reaches something like its normal prewar status.

IMPRESSIONS

"Experience—Life's foremost teacher—has taught us that clothes CONVEY an impression which words cannot CARRY, and right impressions go far toward establishing one's position in the business and social worlds."

Right impressions are conveyed by Harris & Frank's clothes, because clothes' character in the highest degree is embodied in their construction.

OUTFITTERS OF DEPENDABILITY

## AMERICAN TREES SHADE HEROES.

FRENCH PLANT ON BATTLE-FIELDS WHERE UNITED STATES SOLDIERS FELL.

WASHINGTON, March 21.—On the battlefields where American soldiers gave their lives when the call from humanity came, France is planting trees sent by the American Forestry Association.

"In the years to come," said Charles Lathrop Pack, president of the American Forestry Association, today, "America will have the finest of all memorials on the battlefields where her sons answered the call of humanity—living, growing trees of America."

## WOOD AND POINDEXTER IN POLITICAL DEBATE.

SENATOR SAYS "CLOSED SHOP MEANS CLOSED OPPORTUNITY."

(EXCLUSIVE DISPATCH.) PIERRE (S. D.) March 21.—The first Presidential debate before years in this country was held here last night with Senator Miles Poindexter as the challenger and Gen. Wood as his opponent.

Americanism as opposed to internationalism and equal opportunity for all were the main issues in the debate. The closed shop means closed opportunity," was the keynote of his labor argument in which he stated the right of any man to earn a living without the dictation of class labor as to what he shall do, was just as necessary to the welfare of the country as strict regulation of the business interests which seek class privilege through legislation or any other means.

Gen. Wood states his international policy as time for this country to devote itself to the rescue of the American citizen who is imperiled. He is to rescue where the lives of American citizens are imperiled. He is to rescue where the lives of American citizens are imperiled.

At his Port Pierre speech yesterday afternoon he told the women voters that their opportunity is now open to them after years of dreams of political independence and their first vote would be looked upon as a vote as to the manner in which they are expecting to handle their newly acquired privilege. Gen. Wood and Senator Poindexter will debate the same battle with State officials.

## AWARDS COMMON-LAW WIFE WIDOW'S SHARE.

COURT ALLOWS ACKNOWLEDGED HELPER HALF OF ESTATE OF \$340,000.

(EXCLUSIVE DISPATCH.) PEABODY (Tex.) March 21.—According to a judgment which was rendered a few days ago by the Appellate Court at San Antonio, Mrs. Levi Cruz Duncan will receive a widow's share of one-half of her late husband's estate on the grounds that she lived with him for many years as his common-law wife.

The fact that the estate is valued at more than \$340,000, exclusive of \$40,000 cash in the bank, causes the result of the remarkable case to be of unusual interest.

The suit was originally filed and tried in the District Court here. The testimony showed that Duncan, then a young man just embarking in the ranching business, came to the ranching business and there he met and married Levi Cruz Duncan, a young man who lived with him. They were married in the common-law and the years passed without their being bound together by a marriage ceremony. All during these years Duncan paid for the woman his wife. When he died after he had accumulated a fortune he left no will, and as a result of the relations between him and his common-law wife there had been born to them six children, all of whom are living.

In the original proceedings Mrs. Levi Cruz Duncan, the common-law widow, contended that E. J. Johnson, individually and as independent executor of the estate of the deceased, took possession of the entire estate left by Duncan and refused to allow her the use or benefit of any portion of it, although it was her property. Claiming half interest in the property, she appealed to the District Court and asked that she be awarded a wife's share on the grounds that she was the common-law wife.

Her case was submitted to the jury in the trial court, the record shows on the sole issue of whether the deceased and the plaintiff constituted a common-law marriage. The court entered a judgment awarding her half of the estate. This judgment has been affirmed by the Appellate Court at San Antonio.

Davis Shaft is Kentucky's

LOUISVILLE, March 20.—Custody and maintenance of the Jefferson Davis memorial at Fairview, Ky., now practically in the hands of the State. Announcement was made here through the Orphan Brigade, United Confederate Veterans, that Gov. Morrow had signed the bill passed by the last Legislature creating a permanent commission to take over the great shaft.

Five-cent Fare to Coney. NEW YORK, March 21.—The 5-cent fare to Coney Island sought by New Yorkers will go into effect May 1, John D. Delaney, transit construction commissioner, announced last night.

SPOKANE, March 20.—Burning of checks and drafts aggregating \$40,000 in consummating thefts amounting to less than \$200 is alleged to have been done by Boyd Bitter, 16 years old, a messenger boy in the employ of a fidelity National Bank of this city, who has been arrested on a charge of larceny of \$115 which it is alleged he took from the bank.

CONVICTED OF SYNDICALISM. PORTLAND, March 21.—Three alleged members of the Communist party of Oregon, on trial here for eighteen days on charges of violating the State Syndicalism Act, were found guilty by a jury in Circuit Court yesterday.

STOLEN CHECKS BURNED, CHARGE. SPOKANE, March 20.—Burning of checks and drafts aggregating \$40,000 in consummating thefts amounting to less than \$200 is alleged to have been done by Boyd Bitter, 16 years old, a messenger boy in the employ of a fidelity National Bank of this city, who has been arrested on a charge of larceny of \$115 which it is alleged he took from the bank.

AMERICAN-MADE GOODS ARE CHEAP IN NORWAY. CHRISTIANIA (Norway) March 21.—American representatives are trying to repurchase dry goods and wearing apparel bought from the United States for 1914 to 1920 for re-export to the United States, as the prices of these commodities are 50 per cent. lower than those prevailing in American markets.

IMMEDIATELY after the war Norway was flooded with American dry goods and wearing apparel and Norwegian firms placed large orders in America for future delivery.

The Norwegian embargo prohibits the export of goods by American representatives. Most of the American goods bought by Norwegian firms but not yet shipped from the United States have been returned to American consuls there, as the high dollar rate prevents its marketing here.

## UNION LABOR TO FIGHT ARIZONAN

Tucson Unionites Plan Contest Smith Reappointment.

Characterize Him as Champion of "Not Voting."

Republican Candidate is Also to be Opposed.

(EXCLUSIVE DISPATCH.) TUCSON (Ariz.) March 21.—Organized union labor in Arizona is to test its strength this fall in an effort to prevent the reappointment of Senator Mark Smith by the Democratic party or his succession to himself at the fall election in the event he wins nomination. The Tucson Trade Council is leading in a movement for non-partisan participation of the labor union element in politics in the city, county and State. It will have a county convention in the labor Temple here April 10 and thereafter will send delegates to a State convention, to be held in Phoenix.

Generally, heretofore, the unions have been placed in the Democratic camp, especially when the Democrats were led by former Gov. George H. H. Ahern. Lately, it is declared, the Democrats are not as considered as decidedly reactionary in tone.

There is objection especially to the action of the Democratic National Convention Charles H. Ahern, owner of the Phoenix Gazette, which lately declared itself an open shop. Some reference also is made to the fact that one of Senator Smith's campaign managers, Vernon L. Clark, lately presided at an open-shop meeting held in Phoenix and refused to permit the union men present to have a share in the voting.

Even before these things happened, however, the local unions announced opposition to Smith on the basis of alleged adverse action in voting for the anti-trust clause of the railroad bill in the Senate. Smith indignantly replied that he was in El Paso at the time the bill was up and therefore was blameless.

Union leaders here have been searching the files of the Congressional Record and while it is admitted that he has not voted as the unions desire, they have not been able to come up in the past similar tests of sincere friendship for the horny-handed toilers.

The investigation gives a long list of measures of industrial interest on which Smith has voted. The report advises the Senator that "as holder of the long-distance not-voting championship you are not likely to convince many voters to come." It is stated as the sentiment of the membership of labor organizations that this record must be brought to a close.

NO DEMOCRATIC OPPONENT. Just at present there is no opposition to Smith in the Democratic primaries. Gov. Hunt had been spoken of, but appears likely to be confirmed as a candidate for the place which he is being given by the warmest of support by Smith. On the Republican side, neither would the Senatorship be sought by Elias S. Clark of Prescott and by former Congressman Ralph Cameron. It is understood that neither would be more acceptable than is Smith to the unions. If a straight labor candidate be elected, his strength might be expected to be drawn mainly from the Democratic side.

Locally, the unions just now are taking special interest in the approaching school election. A number of the local teachers have formed a union and have enlisted with the American Federation of Labor and there is hope that a trustee will be elected in full sympathy with this cause. One of the teachers won 100 per cent. victory. Practically all the crafts of the city are organized, Tucson being considered "a closed-shop town."

## INHERITS A FORTUNE FROM FORMER AVIATOR

DRYGOODS SALESMAN GIVEN \$100,000 BY FRIEND HE MET AT AVIATION CAMP.

(EXCLUSIVE DISPATCH.) EUREKA, March 21.—Roy Black, a drygoods salesman here, announced last night he had received a letter from a New York law firm informing him he had been bequeathed \$100,000 by G. E. Cartwright of New York.

Black said he met Cartwright in 1918 at Hazelhurst aviation field where both were serving in the aviation corps and that they became fast friends. The letter stated, he said, that four other former soldiers were left \$100,000 each under the terms of Cartwright's will.

Black said he would leave tomorrow for New York.

## AMERICAN-MADE GOODS

ARE CHEAP IN NORWAY

MERCHANTS SEEK TO REPURCHASE WEARING APPAREL SHIPPED TO EUROPE.

(BY CABLE AND ASSOCIATED PRESS.) CHRISTIANIA (Norway) March 21.—American representatives are trying to repurchase dry goods and wearing apparel bought from the United States for 1914 to 1920 for re-export to the United States, as the prices of these commodities are 50 per cent. lower than those prevailing in American markets.

Immediately after the war Norway was flooded with American dry goods and wearing apparel and Norwegian firms placed large orders in America for future delivery.

The Norwegian embargo prohibits the export of goods by American representatives. Most of the American goods bought by Norwegian firms but not yet shipped from the United States have been returned to American consuls there, as the high dollar rate prevents its marketing here.

## FAVORITE MORMON WIFE'S HOME SOLD.

(BY A. P. NIGHT WIRE.) SALT LAKE CITY, March 21.—Amelia, wife of Garbo House, home of Amelia, favorite of the twenty-three wives of President Brigham Young of the Mormon church, famed as a landmark in Salt Lake City, was acquired yesterday by the Church of Jesus Christ of Latter Saints (Mormons) from Mrs. Edwin F. Holmes of Los Angeles for the sum of \$100,000.

It is understood church authorities contemplate tearing it down and erecting upon the site a huge office building.

## STRANDED STEAMER IS STILL ON THE SHOALS.

EFFORTS TO FLOAT ALASKAN LINE PROVE FUTILE; TO TOW TO DEEP WATER.

(BY A. P. NIGHT WIRE.) SEATTLE (Wash.) March 21.—Efforts to float the Pacific Steamship Company's Alaska passenger steamer Admiral Evans, stranded near Seymour Narrows on the east shore of Vancouver Island, early Saturday, have proved futile and arrangements were made today to remove the vessel to a place where it could be towed to deep water.

The hope that she could be pulled into deep water. Company officials believe the vessel for forward hold. Capt. M. M. Jensen of the stranded liner informed company officials today that the boat suffered no damage. The vessel is not in danger and will be able to proceed on her voyage as soon as the weather improves. The passengers are suffering no discomfort.

## FRENCH PEACE LOAN BRILLIANT SUCCESS.

MINISTER OF FINANCE DECLARES CAMPAIGN SUCCEEDS DESPITE DISTURBANCE.

(BY CABLE-EXCLUSIVE DISPATCH.) PARIS, March 21.—It will be four or five days before the results of the French peace loan which closed yesterday will be known. It is stated semi-officially that it has realized between twelve and fifteen billion francs for the government. Minister of Finance Marcell said the loan was unconditionally a success.

Despite the "railroad strike," the miners' strike, the textile strike and the events in Germany and all that, the material and moral forces of France have marched forward together. By Thursday or Friday we will be able to announce the complete result.

## BERLIN SHOPS FILLED WITH ENGLISH GOODS.

(BY A. P. NIGHT WIRE.) WASHINGTON, March 21.—British manufacturers are not losing any time renewing trade with the Germans. Trade Commissioner Dreesel, at Berlin, has reported to the Department of Commerce that the class of mercantile establishments at Berlin are showing varied lines of British-made goods, particularly woollen and leather goods.

Describing arrangements made by the British and the "handmade" situation, Mr. Dreesel said: "There is no reason why such an amount of interest in the goods on a large scale could not be carried out by American dealers."

## BURLESON SCOLDS AMERICAN WOMEN.

(EXCLUSIVE DISPATCH.) WASHINGTON, March 21.—Postmaster-General Burleson at a dinner party last week was talking of the part American women played in the war.

He deplored at some length that they had spent most of their energy seeking publicity, getting their pictures in the newspapers, and dominating new and attractive uniforms. The English women, he said, buckled down to real war work with infinitely greater practical results.

Mrs. George Barnett, wife of the French ambassador, who broke in at last, "I perceive that you are as ignorant of the American female as you are of the American male."

## TO ABANDON NAVAL BASE AT VANCOUVER.

(BY A. P. NIGHT WIRE.) VICTORIA (B. C.) March 21.—The naval yard at Esquimalt, on Vancouver Island, near here will be abandoned as a base by April 1, according to advice received at the yard yesterday from Ottawa.

The Royal Naval College will remain at Esquimalt, the advice stated. Esquimalt had been a continuous service as a Royal Naval Base since 1845.

## PAPER-SAVING.

Do not destroy old newspapers. Save them for the Salvation Army, thereby giving employment to cripples and unfortunate.

When you have accumulated fifty or more copies, fill out and mail this coupon to address below, or notify the Salvation Army by telephone, Main 3069.

ST. PAUL, March 21.—The Republican National Convention at St. Paul, Minn., today significantly welcomed the women as a political force when, by acclamation, Mrs. M. M. Jensen was named first delegate-at-large from Minnesota to the Re-

## MIDDLE WEST NEWS IN BRIEF.

(EXCLUSIVE DISPATCH.) ST. LOUIS, March 21.—Mrs. Elia Lemp Wright, 21 years old, 1148 Lemp place, early yesterday committed suicide in the City of her home. She was recently married for the second time to Thomas H. Wright, St. Louis capitalist and clubman, and was a daughter of the late William Lemp, millionaire brewer, who killed himself several years ago.

Attorneys representing Mrs. Edith Blanch Weeks, of St. Louis county, who last week was granted a divorce from August F. Weeks filed a motion yesterday in the circuit court at Clayton for a new trial, declaring the decree indefinite.

The engagement of Miss Harriet Alcock, daughter of Mrs. Emilie McG. Alcock, of the Shattell hotel, and McLellan Sawyer was made known yesterday.

Dr. John W. Withers, yesterday refused to confirm or deny a report that he had received an offer from the University of the Pacific at Stockton to accept an executive position in that institution.

Harry Turner, editor of Much Ado About Nothing, a Seddon lawyer, for an accounting on property on Delmar boulevard, which Harry Seddon holds for him as trustee.

An inventory of the estate of the late Archibald Stuart charged with embezzlement of \$150 from the Thompson Grocery Company, reported yesterday they had collected \$25,000 from the estate.

At noon yesterday the jury in the case of Archibald Stuart charged with embezzlement of \$150 from the Thompson Grocery Company, reported disagreement and was discharged. Stewart will be tried again at the next term of court.

It was reported yesterday that twenty coal operators in the Victor American Fuel Company, which has refused to renew its union contract with its miners. The open shop system is contemplated by all operators in the State.

At noon yesterday the jury in the case of Archibald Stuart charged with embezzlement of \$150 from the Thompson Grocery Company, reported disagreement and was discharged. Stewart will be tried again at the next term of court.

## FRANCE WAITS NEW PACT MOVING.

Passage of Resolution by United States Senate Doubtful. Peace with Germany Acceptable if Treaty Observance is Stipulated.

BY LAURENCE HILL. (BY CABLE-EXCLUSIVE DISPATCH.) PARIS, March 20.—With the treaty of Versailles definitely defeated in the United States Senate a second time, the next move of that body is awaited here with interest.

The passage of a resolution declaring peace without a treaty, "not arouse resentment, if it stipulated that the lines of the rejected treaty should be followed, as the resolution by Senator Knox, Republican, of Pennsylvania, and Senator Aldrich, Republican, of New Hampshire, was expressed in some official quarters in Paris today that this would happen in the near future.

It is inconceivable to the French mind that the United States will uphold the present treaty situation to continue throughout the Presidential campaign no matter what the exigencies of politics may be.

WILSON OBSTINATE KNOWN. But, on the other hand, the President's obstinacy is fully known in Europe and it is not much hoped that Mr. Wilson will accept a peace resolution of any kind even though it would mean the abandonment of the League of Nations. But the rejection by the President of such a resolution would only serve to stimulate the resentment now being directed at him for preventing the United States from participating in the present treaty.

While the early stages of the treaty fight in the Senate much blame was placed on the Republicans, who are believed to be playing politics, it is now believed that the President is swayed around to regard the President as disavowing the treaty, but according to the countryman to adopt the treaty, if, at the same time, the United States were to accept the League of Nations.

TWO BIG QUESTIONS. Two questions of great interest now loom up here as a result of the treaty defeat. They are: Will the President accept a peace resolution of any kind even though it would mean the abandonment of the League of Nations? Will the President accept a peace resolution of any kind even though it would mean the abandonment of the League of Nations?

## MEXICO HEADQUARTERS FOR AMERICA'S REDS.

STRIKES IN ALL COUNTRIES CALLED AT AMSTERDAM COMMUNIST CONFERENCE.

(BY CABLE AND ASSOCIATED PRESS.) THE HAGUE, March 20.—A full page account of resolutions adopted at the conference of international Communists held in Amsterdam early in February, when that city, at the direction of the Russian Bolshevik premier, Lenin, was selected as the scene of the international clearing house of the Communist movement, was published today by the Amsterdam Tribune, organ of the Dutch Communists.

A secret account of this conference, obtained by the Dutch police and made public by the Handelsblad several weeks after it was held, said resolutions adopted called for action by the leading Jewish organizations of the world, will not be acted upon until the treaty of peace is made with Turkey.

Operation of schools closes in Minneapolis will be twice as much as it was seven years ago, according to a compilation of expense figures issued yesterday by George M. Link, secretary of the Board of Estimates and Taxation.

To Sell Red River Leases. OKLAHOMA CITY, March 20.—Leases on all land in the bed of the Red River, including property in Oklahoma, Texas, and Louisiana, will be offered for sale April 6, according to advertisements published by the State land office. Payments for leases of the disputed lands are to be made in oil, the advertisement states.

MILWAUKEE. MILWAUKEE, March 21.—H. M. Stratton is slated for re-election as President of the Wisconsin State Fair Association. He is the only nomination offered yesterday.

Steps will be taken by the stockholders of the Milwaukee Stock Exchange to have Dietz-Atty. Zabel reopen his inquiry into the sudden disappearance of the bonded stock of the Leasing, at a stockholders' meeting. Forty-five persons were present, holding \$35,000 in worthless stock.

Mrs. Simon Mackey, a long-time resident of Milwaukee, died at her home yesterday.

The Wisconsin League of Women Voters has called a mass meeting for next Tuesday at the Auditorium when the candidates in the municipal election will be discussed.

The body of Mrs. Lena Tillman, Milwaukee, who died in New York, will be brought here for burial.

INDIANAPOLIS. INDIANAPOLIS, March 21.—Directors of Butler College at a meeting yesterday authorized the Executive Committee to increase the salary list for next year to a basis of \$3000 maximum. The heads of departments and older men of maximum and others will be graded.

Business women are urged to support a nation-wide speed-up production campaign. Speakers appeared yesterday before the third annual convention of the Indiana Women's Association at Commerce at the Claypool Hotel.

William Elder, acting as agent for the State Tax Commission, withdrew the petition which he filed to place Mr. Marshall's name on the Democratic primary ballot as a candidate for President.

Indianapolis Elks Lodge No. 13 is thirty-nine years old today. The lodge will commemorate the occasion with a big celebration.

Any taxpayer can appeal to the State Tax Commission at any time prior to April 30, each year, according to a new rule of the commission.

ST. PAUL, March 21.—The Republican National Convention at St. Paul, Minn., today significantly welcomed the women as a political force when, by acclamation, Mrs. M. M. Jensen was named first delegate-at-large from Minnesota to the Re-

DELAWARE FIGHT  
SUFFRAGE PERILFactions in Rift Over School  
Code of State.Opposition is Making Last  
Desperate Stand.Republicans and Democrats  
Urge Ratification.

WASHINGTON, March 21.—On the eve of the final victory in the long fight for national woman suffrage, ratification by the Delaware State Legislature, which convenes tomorrow, is endangered by a factional fight over the school code of the State, and the redoubled efforts of opponents of suffrage in and out of Delaware who are making a last desperate stand against ratification of the national amendment.

Delaware, if the suffrage forces finally win out, will be the thirty-sixth State to ratify the amendment. Up to date, no State Legislature having a Republican majority has failed to ratify the amendment, and mindful of the importance of completing the amendment, but in Delaware, addressed impartially to Gov. Townsend, who is leading the fight for the school code, and to Daniel Layton, Republican State chairman, who is opposing it. Both men are ostensibly in favor of ratification of the amendment, but in spite of a suffrage statement issued by Layton, suffragists count him among their enemies. The President of the Senate is on record as opposed to suffrage but even more opposed to the present school code. The Floor Leader of the House is for suffrage and for the code.

ONE VOTE SHORT IN SENATE.  
Polls of the members of the Legislature show at the best one vote short in the Senate and one more than required for ratification in the House, while the suffrage poll, which is leaving nothing to chance, shows three votes lacking in the Senate and six short in the House. Telegrams from cabinet members and Democratic Senators were sent last week to the Democratic leaders in Delaware urging them to support the passage of the amendment, and when he called the Legislature Gov. Townsend predicted ratification.

The danger has arisen suddenly, and suffrage workers in the State report a fight more bitter even than in West Virginia. Many of the legislators know little and care less about the amendment and others are being intimidated by the argument that it is unconstitutional.

OPPOSITIONS FIGHTING HARD.  
The "antis" are certainly putting up the fight of their lives, one national organizer reported to Miss Alice Paul, chairman of the National Woman's Party, who left tonight for Delaware.

The uncertainty and alarm felt in Republican circles last Delaware with a strong Republican Legislature, should defeat the amendment by refusing the thirty-sixth ratification is evidenced by the reports received at national suffrage headquarters here today.

According to a statement issued

BRITAIN WAITS  
AMERICA'S MOVEBritish Curious to Know what  
this Country is Planning.Statesmen Believe Nation has  
Lost Wonderful Chance.President Wilson is Blamed  
for Treaty's Defeat.

LONDON, March 21.—The British are curious to know whether America will make a separate peace with Germany and Austria; whether she will apply for admission to the League of Nations, whether she will intervene again in European affairs and whether she will accept an Entente relationship with other nations.

British statesmen are sorely disappointed. They think that the United States has lost a wonderful opportunity and that her influence for the good of Europe, and there are many who believe that America will continue to play a big part in European affairs. There is a very real desire to co-operate with America, and on the other hand, many English-speaking peoples. Many Englishmen are working hard to get the United States to join the League of Nations.

CHAPLIN AND ESSANAY  
DAMAGE SUIT ARGUED.

DECISION RESERVED IN ACTION  
FOR HALF-MILLION  
AGAINST COMEDIAN.

NEW YORK, March 21.—Argument in the \$500,000 suit of Essanay Film Company against Charlie Chaplin was heard before the appellate division yesterday and decision reserved. The company charged that Chaplin contracted to make ten pictures, only made six, then went to work for another company.

AMERICAN SMELTING  
NETS FIVE MILLION.

LAST YEAR'S INCOME FALLS  
OFF MORE THAN TWO MILLIONS,  
REPORT SHOWS.

NEW YORK, March 21.—Net income of the American Smelting and Refining Company and its subsidiary, the American Smelters Securities Company, for 1918 amounted to \$5,955,285, a decrease of \$2,113,914, according to the annual report issued today.

Net earnings of operating properties totaled \$13,846,353, a decrease of \$2,535,297 and gross income of \$14,695,742 represents a decrease of \$3,418,825.

The uncertainty and alarm felt in Republican circles last Delaware with a strong Republican Legislature, should defeat the amendment by refusing the thirty-sixth ratification is evidenced by the reports received at national suffrage headquarters here today.

According to a statement issued

NEARLY TWO MILLIONS  
BACK OIL ROYALTIES.MAXIMUM SUM CALIFORNIA  
MAY EXPECT TO RECEIVE  
FROM GOVERNMENT.

SACRAMENTO, March 21.—The maximum sum California may receive in back royalties from the Federal government as a result of enactment of the oil land leasing bill, is placed by State Controller John S. Chambers at \$1,812,500.

Based upon an estimate of past production totaling \$72,500,000, of which the Federal government will receive \$5,962,500 and the State 20 per cent of that amount.

Controller Chambers pointed out that all land in controversy with the government may not come in voluntarily under the leasing law. It is known that the number of companies will contest their cases, the largest of which has approximately \$1,000,000 impounded.

Figures upon which Controller Chambers made his estimates were from a report of State Mineralogist Hamilton.

Annual return to the State, based on last year's production, is estimated at \$1,812,500. On this basis the Federal government would be entitled to \$5,962,500 and the State's share is 37 1/2 per cent of that amount.

ALLIES AND NEUTRALS  
TO HELP AUSTRIANS.

SYSTEM OF CREDIT BEING  
WORKED OUT TO REHABILITATE  
FORMER ENEMY.

PARIS, March 21.—Important negotiations have been in progress for some time between Allied representatives and the neutral governments of Switzerland, Holland and Belgium, with a view to the rehabilitation of Austria and other central European States, it was learned today.

One question under discussion is a proposed scheme of credits, with the object of securing the financial and economic rehabilitation of Austria and other central European States, it was learned today.

HUNGARIAN LOAN WILL  
BE FORCED ON PEOPLE.BANKS ORDERED CLOSED;  
MONEY MUST BE TURNED IN  
AND STAMPS RECEIVED.

BUDAPEST, March 21.—The government has ordered all banks closed and that preparations be made to commence the stamping of all money in circulation in Hungary.

The money in the hands of the people must be stamped and the stamping of the money in half the amount presented. The other half is to be converted into state bonds redeemable in a few years. The bonds will bear interest at the rate of 4 per cent per annum.

As the notes of the Austro-Hungarian Bank circulating in Hungary total about 14,000,000 kronen, the compulsory loan is expected to bring about 7,000,000,000 kronen. There is the greatest excitement throughout the country, because the peasantry has hoarded huge sums of money and are now trying to avoid loss by asking double prices for their products and are demanding payment in silver, gold or manufactured articles.

In financial circles pessimism is expressed over the situation. It is pointed out that the new measure may alleviate temporarily the government's embarrassment, but that it is hardly likely to improve the exchange rate or reduce high prices.

TEXAS FIRM IS GIVEN  
FISHING CONCESSION.

MONTEREY (Cal.) March 22.—Francisco P. Estrada, a lumber dealer of Eagle Pass, Tex., and associates have just been granted a concession by the Department of Communications and Public Works of Mexico to build fish canneries, factories and fertilizer works and conduct a fishing business along the Pacific Coast of Mexico.

In former times the fisheries industry in the Mexican waters bordering the west coast was large, but the administration that succeeded that of the late President Diaz cancelled all exclusive concessions of that nature, including that for pearl fishing.

It is reported that a Japanese syndicate now holds an exclusive concession for the pearl fisheries rights of the waters of the Gulf of California, graded some time ago by the Carranza government.

The pearls and shells of the sea-mussel of the Gulf of California have for many years been a source of great wealth. The industry is chiefly controlled by the Mexican town and port of La Paz, on the lower part of the peninsula of Baja California. Breeding and growing pearls by artificial means has assumed much importance there.

THREE L.W.W. ON  
TRIAL IN WASHINGTON.

WALLA WALLA (Wash.) March 21.—Detectives and policemen from other points in the Northwest were witnesses yesterday in the trial of three men charged with sabotage. Identification of L.W.W. literature was made by the jury.

The case will last a week. The defendants are charged with sabotage and the trial is expected to be a long one.

THEIR CRIMINAL RECORDS  
WHILE LEGISLATOR TELLS  
OF FURTHER PLANS.

NEW YORK, March 21.—While "Big Bill" Haywood, L.W.W. leader, was on the stand at one of the trials today the "indignities" to which the Department of Justice had subjected "Reds" were described by a member of the House Immigration Committee.

According to Mr. Siegel, a member of the House Immigration Committee for the most part without comment, "Reds" would be deported from America within the next four weeks.

DEL HOWARD READY  
TO WIELD MEAT AX.

OAKLAND, March 21.—The members of the Oakland team were given a holiday from their training camp at Emeryville today, as the diamond was too wet to allow them to practice. Manager Del Howard did not have things very easy, for he spent most of the afternoon at his office, looking over the roster of his players and trying to make up his mind which ones will be the first to feel the effects of the hatchet which he intends to wield tomorrow morning.

The team is pretty well shaped up, after two weeks training, so Howard will have very little use for the surplus youngsters between now and the start of the season. Howard will use his regular players in the remaining practice games with a few fast local bush clubs and the Chicago Cubs who will be here next week.

ENGLISH TEAMS TO  
RUN IN RELAY RACE.

PHILADELPHIA, March 21.—Oxford and Cambridge universities of England will be represented in the twenty-sixth annual relay carnival of the University of Pennsylvania on Franklin Field here April 30 and May 1 by a team of runners who will contest for the college relay championship of America.

KALAMAZOO COPS  
SENIOR HEXATHLON.

KALAMAZOO (Mich.) March 21.—Kalamazoo's Y.M.C.A. athletes have won the senior hexathlon, conducted by the International Athletic Association. The score was 2315, Honolulu was second with 2372, and Chicago third, with 2380. The scores of the high eight contestants constituted the total for each team entered.

# The People and Their Troubles

## WHY MEN MARRY

BY JANE DIXON.

"Men are not nearly so complex as women. They are simple creatures for the most part, and marry for purely physical reasons."—A. H. HURST.

In there any writer of today who goes closer to the human heart, who pounces upon the funny little hinks and cross-currents that go to make up individual humanity and holds them up to the public gaze like this breezy young woman from the banks of the Mississippi?

Fannie Hurst has a way of sitting in with the family at the table with the chipped china, and gathering all there is of smiles or tears at the board.

She can go thence directly to the high-ceilinged, crystal-chambered drawing-room and come out with an equal quantity of life's sweet and bitter tuckered away in her notebook.

And when it comes to transferring these real life observations and experiences to paper there is no contemporary writer who can outphotograph Fannie Hurst.

All this that you may know the declaration of the St. Louis girl with the magic in her pen is worthy of the most serious consideration.

"Men think very simply and clearly on the subject of marriage," says Miss Hurst. "They either want or they do not want."

"Women are vastly more complex in their reasons for committing matrimony. They are actuated by a variety of reasons—insurance of their future being one of the most frequent."

"Who is going to take care of them when the same nest-egg is hatched? Some male, take father's place as a provider. Any number of women, pondering this problem, grow panicky and grab the first reasonable offer of marriage that happens along for fear it will be their last. This man is a minor consideration. It is getting married that counts—insurance bought and paid for."

"That," sighed the speaker, "is the way things stood during the dark ages of matrimony, from which we are only now beginning to find deliverance."

"Thank heavens, women have discovered they have a couple of feet to stand on and two hands to work with and a brain for their own thoughts and a SPINE. They have found they can buy their own insurance policy on their future. It means a revolution of the entire marriage market. It means better husbands, better wives, better children."

"For marriage is no longer going to be a blind surrender to fate. It is going to be selective."

A woman will marry the man she wants, not the man she feels she must take. A man will marry a woman, not a woman, a propagation plant."

Fannie Hurst sat very straight and tense in the great Spanish chair where she had hung herself. Her dark eyes danced with the earnestness she put into her subject. A deeper crimson dyed her plump cheeks, already spanked to flame by the sharp winter wind. She is such a healthy, good-natured vivacious woman of unquestionable wit. She reminds one of nothing so much as an overgrown boy bent on getting all the fun out of life and succeeding admirably.

"I know we are all pretty well fed up on the subject of woman and her economic independence, but it is like the new toy, Johnnie gets his Christmas, we can't get anything for a while but play with it."

"Men do not like the subject so much. Why should they? As it is today they feel they are being deprived of something they cherish very dear, the home woman. What an absurdity! As if a woman could not be a model homemaker and an economic unit as well. I should hate to see a man capable of holding down two jobs, neither of which need interfere with the other."

"Fortunately, it is not going to take men long to discover the economically independent woman is the safest, the worthiest and the most admirable selection for purposes of matrimony."

"The woman who has proven sufficient in the matter of earning a living will not whine. She has no time to nag. She understands the value of the dollar too well to turn her husband into a debtor's court. She does not hang around his neck like a lodestone in adversity. She takes her place by his side and they carry on together."

"However, the man who marries an economically independent woman has the satisfaction of knowing he is not accepted as the better of two evils, a husband or a parasite, a man in the home of a man. He is selected because this woman wants him for his sake. When the practice becomes general divorce courts will have to go out of business."

"Independence of woman will bring about a new and better set of reasons why men marry. Sentiment will be bolstered up by respect and admiration based upon something more than mere physical charm."

"It was suggested to Miss Hurst, admittedly I hope, that she had not braved the uncertainty of matrimony in search of this equality of happiness."

"My hostess laughed. She was the big, heavy boy again with the mammoth-shaunter pulled rakishly leftward, hands thrust into the pockets of her army sport suit, tan walking shoes caught in the crumple of the Spanish chair and the bright orange of an artist's tie voicing the weariness of color and life."

"I confess an entirely different attitude toward marriage since I have discovered that the economic unit in this world. When I

found I could earn money, that my thoughts, my opinions, were worth something, had a real marketable value, I began to place an entirely new valuation on myself. Every woman does the same."

"And you prefer being an economic unit to being a wife?" I asked.

"No, indeed," energetically. "Why not both?"

"The war has helped. Economically it has thrust women ahead a century. Give them time, these bush-league husbands and potential husbands. By and by they will toss aside the ancient code and adopt the new set of reasons why men marry. A few generations hence such an anomaly as an absolutely dependent woman will be practically extinct. Speed the time."

In one of her more recent short stories which go to make up a pulsing and pulsant package of human emotions enclosed between the covers of a volume called "Hush and the Echo," Miss Hurst has given us a cleverly etched reason why at least one type of man marries. The story is "Oats for the Woman" and the woman in it speaks thus of her approaching marriage to a man in St. Louis:

"He is just a plain, good man. I never in my life dreamed of having a good home in a good town where life isn't like a red-hot devil ready to hit in deep between the shoulder blades. I know why he says he can see his wife in me. He knows I'm the kind who cut out for that kind of a life—home and kitchen and my own parsley in my own back yard. He knows, if he marries me, carpet slippers seven nights a week is my speed. I never want to see a roof or a music show or a cabaret again so long as I live. He knows I'll fit into a home like a puzzle into its bowl. Life made a mistake with me, and it's going to square itself."

Around the corner and "Every Soul Hath Its Song," Miss Hurst gives additional and convincing reasons for committing matrimony. And for not committing matrimony.

Readers must answer the questions according to the light in their own heads and hearts.

### QUESTIONS ANSWERED

Question: What is the salary of the President of the new German republic?  
E. L. S.

Answer: Friedrich Ebert receives a salary of about \$240,000 per year. This is a big money for a man who has been in the military service for 20 years, and who has been in the military service for 20 years.

Q: How much money did Great Britain lend to her allies during the war?  
W. R. C.

A: About \$3,000,000,000. The heaviest debtors include Britain, Belgium and Russia. England herself borrowed about \$4,500,000,000.

## GASOLINE ALLEY—WALT LOSES AN ARGUMENT.

Q: Which is the greatest peanut-growing State in this country?  
A. L. M.

A: Alabama is the leading State in peanut production with 6,940,000 bushels to her credit in 1933, while five other States produced from 2,400,000 to 5,500,000 bushels each. The total production of peanuts in the United States last year was 22,540,000 bushels, having a cash value of \$100,000,000. This winter the average price paid for peanuts was \$2.40 per bushel.

Q: Are men in the military service still allowed to travel on furlough for 1 cent a mile?  
E. D.

A: Since the railroads have been returned to the private owners, the 1-cent mileage for service men on furlough is at an end.

Q: How much money did Great Britain lend to her allies during the war?  
W. R. C.

A: About \$3,000,000,000. The heaviest debtors include Britain, Belgium and Russia. England herself borrowed about \$4,500,000,000.

## SAYS HE'S MIRACLE MAN.

(Continued from First Page.)

aid except that on character, good health and common sense. "England," I heard him say, "is on the verge of a great industrial and political upheaval." For this American, with his wide-world experience, the Hoover family one day, preceding his election to the Presidency, he was editor of a newspaper, the Burger Zeitung, published in Bremen.

Mr. Ebert became a member of the Reichstag in 1912 and in the following year was elected chairman of the Social Democratic party.

His genius consists in knowing many things well, Herbert Hoover is certainly born by nature and by experience one of the greatest of the world has had. He is an author without number, a speaker without equal. "Mining," is a revelation of his own original methods in complex and difficult fields.

He also found time for the translation of a book on metals and mining written in 1930 by George Agricola. This book remained untranslated for nearly four centuries owing to the dogmatic Latin in which it was written. This work took all the time he could spare for several years.

HAS DONE VITAL WORK. Hoover's gift for swift and effective command is nothing short of marvelous. Looking over the long list of the vital work he has accomplished since the outbreak of the war, one wonders how it was all done. When the war started 45,000 Americans were stranded in London, and in the Hoover family one day, preceding his election to the Presidency, he was editor of a newspaper, the Burger Zeitung, published in Bremen.

## LETTERS TO "THE TIMES"

Hats Off to Hickson.

LOS ANGELES, March 22.—(To the Editor of The Times) Hats off to Dr. William J. Hickson of Chicago, the world's greatest psychopathologist. In this age of female adultery he has dared to stand up and pointing to the modern male—say to all the world "This was a man"—with the emphasis on the "was."

Of course one psychopathologist cannot hope to defeminize society. The ugly duckling has grown up, not into a graceful swan, but into a paid-de-facto-grass goose—and man's occupation is to keep on feeding that abnormal liver from this time forth for evermore.

Once the cackling of geese availed home from the Gothic and vaudal. But the cackling of our modern geese is delivering America over to the barbarians.

Naturally under feminine control one would expect the abolition of the social evil to be "unfairly accomplished."

But how has the narrow-gauge feminist mind achieved this object? Must it be by the use of the sword and the dagger followed by magnificent altruism, thus making "the widest profession" respectable for the woman and infinitely more expensive for the man.

Such is the feminine method of purging society. Man's little peace-dollars, such as drinking beer and smoking cigars, must be magnified into crimes and woman's vicious tendencies must be whitewashed into virtues. A man goes to jail for carrying a pint of claret in his picnic basket—a woman at 25 can boast six husbands and five alimonies, and in consequence make a fortune as a screen popular favorite.

America's latest ration law is also woman-made, devised by a Mary Baker Eddy, a conglomeration of the teachings of Epictetus, Bob Ingersoll and Jesus of Nazareth; and applied not for the spiritual uplift, but for the cure of galathea, epilepsy and polio in the nose.

Crime has increased gorgeously in the dawn of this era of the angels. In the last six months there have been nearly twenty celebrated cases of husband killings by disgruntled wives and in no single instance has the woman been convicted or even rebuked for the crime. In some instances, indeed, uxoricide has proved an easy stepping-stone for the woman to fame and fortune.

Divorce is not so swift an approach to alimony as the automobile or the cup of poison. Why woman's new sphere of activity? It is easier to kill an undesirable husband than to wait for him to die a natural death. Killing will soon be recognized as the natural death for the superfluously married male.

Consider the woman of today as she walks down the street; the long, lean pointed French heel throwing her ungainly body all askew, her fat shoulders in winter adorned merely with hundreds of thousands of pearl necklaces and in summer adorned in millions of dollars' worth of fur; her exposed calves crammed into \$50 silk stockings; perfumed and powdered and decked from her over-developed equator to the needle heels beneath and the pin-head above; a grotesque, badly-balanced mass of fat and audacity.

## Headquarters for Electrical Servants

—a New Home Service

On March the fifteenth this new Domestic Electric Appliance store opened its service to the homes of Southern California—Offering an electrical servant for every household duty—With demonstration rooms in the center of the new shopping district on West Seventh Street convenient for Milady to see in practical operation the "servants" that today are making housekeeping a pleasure and a joy rather than a "duty of necessity."

Here she will see, demonstrated by courteous Domestic experts—

## THE KELVINA TOR

A refrigerator that eliminates the iceman—operating automatically by electricity—the biggest new electrical servant.

## A Complete Line of Electrical Appliances

Washing Machines Electric Irons  
Vacuum Sweepers Toilet Articles  
Sewing Machines Lamps & Accessories  
Ironing Machines Everything Electric

## For the Farm and Country Home See The OWEN Full Automatic Farm Light and Power Plant

We are distributors for California, Arizona and New Mexico of the KELVINATOR and the OWEN.

You are invited to our demonstration rooms in the heart of the new shopping district.

POSITAS

Defeat Coronado Polaris

Victory Carries Champion

Blackwell and Maurice H.

[BY A. P. ROYCE WHITE]  
SAN DIEGO, March 21.—The  
positas polo four had little to  
winning the Pacific Coast title  
on a championship this afternoon  
on the Coronado Country Club.  
21½ goal to 3½ score. The day  
fairly rain this morning, the field  
perfect condition for the game  
and the largest crowd of the  
season was out to see the match.  
The playing of Dr. A. M. H.  
Hill, who made nine goals, and  
 Maurice Hecksher, who had  
his credit, were the feature.

## HIT RAILROAD BODY'S ACTION.

Standard's Price Advance is Justified, Say Oil Men.

Point Out Increased Cost and Dwindling Reserves.

No Reason for Commission's Inquiries, They State.

(SPECIAL CORRESPONDENCE)

BAKERSFIELD, March 20.—With oil stocks in California dwindling at the rate of nearly 1,000,000 barrels a month, and the demand never greater, and with eastern petroleum increasing in price nearly every day without government opposition, California fields are not in harmony with the action taken by the State Railroad Commission in declaring the Standard Oil Company's reason for granting an increase in price at the well "adequate" and demanding a full explanation.

With the law of supply and demand for a basis of all economic conditions, oil men say, the railroad commission can find no valid reason for interfering with the increased price, especially in the face of the fact that the price of oil has not increased anywhere in proportion to the increased cost of production.

During February oil stocks in California decreased 87,724 barrels. Production for the same period in California was 1,347,454 barrels, or a daily average of 27,405, an increase of 929 barrels daily compared to the month previous. Shipments for February were 30,410 barrels. Thirty-four new wells were completed, with an initial daily production of 13,325 barrels.

Of the total oil production of the State, Kern county produced more than half the figures being 7,151,214, or a daily average of 129,464 barrels from 5270 wells.

The State's daily oil production in Kern county was divided in the various fields as follows: Kern River, 20,565; McKittrick, 7,247; Midway-Sunset, 30,214; Lost Hills-Beidridge, 13,140; Coalinga, 42,503; Lompoc and Santa Maria, 18,503; Ventura and Newhall, 17,144; Los Angeles and Salt Lake, 17,229; Whittier-Fullerton, 7,447; Summerland, 147, and Watsonville, 75.

LEAD IN DRILLING.  
The Whittier-Fullerton field is leading in the number of wells drilling, the number being 149 for February. In Kern county, 118 wells were being drilled, sixty-seven of them being in the Midway and Sunset fields, whereas twenty-four were in Kern River, seven in McKittrick and eighteen in the Lost Hills and Beidridge sections. Twenty-three of the state's new rigs built in Kern county.

Oil being increased in price approximately 25 cents a barrel at the well, operators throughout California have renewed incentive to speed up production, with the hope of diminishing the drain on stocks. The increased price is already having an enervating effect and many operators are spending extra with the view of bringing in wells now under the drill and outlining plans for future development.

Following the election of a board of trustees to handle the affairs of the concern, the Taft City Annex Oil Company will start immediate development of its property recently acquired by purchase in the center of the oil-producing area just outside the city limits of Taft. The trustees visited the property a few days ago and decided to at once close out the two wells on the property and follow this up with a twenty-well drilling programme.

Dr. N. N. Brown, vice-president and A. G. Jones, secretary. All are Bakersfield men. The property is patented land which has been tied up in litigation, due to the settlement of the E. J. Board estate, but has been entirely cleared of encumbrances, and it is believed one of the best producing properties on the west side will be developed.

The date of the annual meeting of the Independent Oil Producers' Agency has been definitely set for April 7 in Bakersfield. Increased price for oil will be one of the chief topics of the meeting. It is anticipated that J. P. McLean, president, and the other present officers will be re-elected.

The General Petroleum Company is cleaning and redrilling three wells in Kern county in three different fields. The most important being No. 2 well, section 16, 20-22, in the Elk Hills. The others are No. 82, section 19, 24-21, Lost Hills, and No. 8, section 14, 22-24, Midway.

REVIVAL SEEN.  
Revival of the old Sunset field near Maricopa is forecast in the proposed sale of the Sunset Road Oil holdings of 2500 acres to A. J. Pollock and San Francisco associates for approximately \$1,000,000. It is said the deal has not yet been closed, pending the searching of titles.

Approximately 1400 barrels of oil a month are being produced on the lease holdings of the Enos Oil Company in section 6, 23-25, immediately west of the Monte Carlo lease of the Standard Oil Company in section 5 of the Kern River field. The Enos company has recently announced the sale of this property to the Commonwealth Oil Company for \$75,000, plus a one-sixth royalty on the oil produced.

Now that the oil-land leasing law is effective the St. Helen's Oil Company will probably have its affairs adjusted and the \$1,900,000 in the hands of the receiver from oil sales distributed. Of this amount the government will retain one-eighth and the remainder will be divided between the stockholders and the lessor.

Company in the McLeod lease section 22, 21-24, are producing 900 barrels daily of 26.5 gravity oil, which brings \$1.82 a barrel under the new price schedule.

William Ivey, chairman of the board of directors of the Kern River Oilfields of California, Ltd., and Outside of England, with Albert Mitchell, a director in the Kern River and St. Helen's petroleum companies, both of London, England, were gratified, on a visit here a few days ago, to find the properties in the Kern River fields holding up so well after their years of production. The producing properties of the company in the Kern River fields are located on sections 3 and 19. The 255 wells are producing 50,000 barrels a month. All pumps being worked by electricity.

According to reports from Visalia, the Land Office there has received

## NEWPORT TO SHIP OIL.

(SPECIAL CORRESPONDENCE)

TAMPICO, March 18.—That the new harbor of Port Lobos, between Tampico and Tuxpam, is rapidly assuming a position of importance in the oil industry is shown by the record of shipments from that point during February. The total quantity of crude, distillate and reduced petroleum shipped from there that month was 2,317,000 barrels. Of this amount, 2,208,000 barrels were shipped in American bottoms and 109,000 barrels in Norwegian bottoms. Extensive terminal facilities have been constructed at Port Lobos.

THE Mexican government has granted a permit for the Compania Metropolitana de Oleoductos, S. A., to double its pipe line from Tepic to its terminal at Puerto Blanco, where the company is constructing a topping plant that will have an initial capacity of 5000 barrels a day. It is expected that this plant will be finished and placed in operation about July 1. The doubling of the pipe line will give it a daily transportation capacity of 50,000 barrels a day.

The new harbor dock which the Standard Oil Company is building at La Barra, near the mouth of the Panuco river, will give the company double its present loading facilities at that point. The Transcontinental Oil Company, the producing end of the Standard Oil Company in the Mexico fields, is carrying on extensive development operations.

It is expected that by May 1 the Mexican Agula Oil Company will have finished the erection of its third steel storage tanks upon its tank farm, thus adding 800,000 barrels to its storage capacity.

An additional force of construction men and office employees is being brought to Tampico by the Com-Humboldt.

(SPECIAL CORRESPONDENCE)

SWANSEA (Ariz.) March 19.—The Swansea lease will make extensive exploration of the 600-foot level and has installed a double-drum steam hoist. Very little water has been found. The mill is handling about 8000 tons of ore a month, using Mineral Separation flotation, and is shipping concentrates to Humboldt.

(SPECIAL CORRESPONDENCE)

PHOENIX (Ariz.) March 19.—The annual meeting of the Kay Copper Company was held in the Phoenix Building, the week at which time the directors and officers were elected for the ensuing year.

A number of the largest stockholders of the company attended the meeting, among whom were F. W. De Foe, executor of the Yawkey estate, and C. C. Yawkey of Waukegan, Wis., one of the largest lumber operators in the United States.

The directors in turn elected the following officers: George W. Long, Fred P. Elliott and S. J. Tribolet of Phoenix, and F. R. Spess and F. W. De Foe of New York.

## YELLOW TIGER BUYS TWO CLAIM GROUPS.

(SPECIAL CORRESPONDENCE)

GOLDFIELD (Nev.) March 19.—The Sterling group of six claims, located in the Silver Peak district, four miles south of Goldfield, has been acquired by the Yellow Tiger Company, and an option has been taken on the controlling interest of the Silver Peak Silver Mining Company in six claims and a fraction. The properties adjoin and are located three miles from the Tonopah and Tidewater Railroad.

The Stonewall group has been developed to a depth of 240 feet and contains ore reserves valued at \$200,000. A large tonnage of mill ore is available, together with some shipping product. Silver predominates and the milling ore is stated to average around 457 per ton. The Sterling group has been explored sufficiently to demonstrate presence of two strong ledges.

During February the Yellow Tiger Company is building a camp and preparing to drive a long crosscut tunnel to develop both properties at depth. The tunnel will probably be driven 4500 feet and is expected to intersect the Stonewall vein at a vertical depth of 1200 feet. The Sterling vein should be cut at a comparatively short distance from the tunnel-portal. Operations at the Goldfield properties of the Yellow Tiger Company have been discontinued for the present.

The Goldfield Development Company has increased activities on the Riley area of the Florence and is busy engaged in blocking out milling ore. Arrangements have been made to treat the high-grade mill ore recently opened in territory under lease to the Crackerjack and Silver Pick Companies. Funds derived from the Riley area are expected to prove ample for additions to the mill and it is understood that the mill will go into commission soon.

100

ciate (limestone), and from its odd yellowish color it could be confused, at sight, with vanadium and uranium minerals. Both of the metals named, however, are not present in the sample. No. 2 is on the order of No. 1. There are traces of zinc in samples 1 and 2. No. 3 is (decomposed in part) Actinolite, a variety of hornblende.

**Eighteen Samples.**  
VICKSBURG (Aris.) March 6.—Q: I am sending with this same mail samples from a new mining district. No prospect hole or prospector's monument or mark has been found within several miles of the place. It is southeast of Vicksburg about four miles over level ground to the hill or sort of mesa. The upper stratum is malapaí (?) or hard phonolite and it rings like hard cast metal when struck with a hammer. Are there any values in any sample, and what is the name of the stuff? Thanking you for past favors.

**A SUBSCRIBER.**  
A: There is no phonolite among the specimens. The samples are of scoriaceous and lava-like substances and are truly the "bad rock" of the Mexicans (malapaí). The highly-colored (reddish) substances are chiefly lime carbonate; iron and magnesia present. Judging from the samples it is probable that you are in a doubtful locality for ores of the metals in money-making profits.

**Two Samples.**  
LOS ANGELES, March 6.—Q: The ore samples are from outcroppings near Los Angeles and numbered 1 and 2. Please state what they are. H.  
A: The specimens were found loose and separate from the rock. No. 1 is low-grade greasy quartz; iron-manganese present. No. 2 is a blackish-brown asphaltum from a narrow sagitt.

**Crystal of Orthoclase.**  
AZUSA, March 6.—Q: From head of San Gabriel Canyon. What is it? JACK.  
A: Some authorities would refer the crystal as under the head of "Porphyry." It is Orthoclase (potash feldspar).

**Platinum Absent.**  
OWENSMOUTH, March 6.—Q: Analyze for platinum. Obliga. WRS. F.  
A: The sample is simply a mass of silvery mica (muscovite) with traces of lime carbonate.

**Miscures.**  
LOS ANGELES, March 6.—Q:

# Karo

**YOU** don't have to pay the present high prices for your jams, jellies and preserves nor the high price for store candy.

Use **Karo**—the Great American Sweet for every purpose. **Karo** is another word for economy.

Many women have learned that **Blue Label Karo** is not only a delicious spread for pancakes, but will sweeten their food at much less cost than sugar, and make the most wholesome Home-made Candy.

Stewed fruits, candied sweet potatoes, brown bread, muffins, coffee cake, pudding—hundreds of foods are now prepared by the best cooks with **Karo**.

**NOTE:** Your grocer is selling **Blue Label Karo** by the dozen cans—the best and cheapest way to buy it. Ask him the price.

**CORN PRODUCTS REFINING COMPANY**  
17 Battery Place New York

Over one thousand cases automatically treated. 9 to 5; Sunday, 1 to 3 p.m.

**"HIS WIFE'S MONEY"**

## FLASHES.

## THREE-ANGLED SHOW.

## MUSIC, SMILES AND NOVELTY

## IN CALIFORNIA BILL.

## By Grace Kingsley.

## Queer how, more and more, picture-

## houses are getting to be these days!

## If you get me! Meet the manager

## of such a theater any day, and he'll

## buttonhole you at once. "I've got

## the most wonderful prologue!" he'll

## exclaim, "and—"

## "Well, what about the picture?"

## you ask.

## "I'm saying," he runs on,

## "the most wonderful prologue, and

## the snappiest little dancer, oh, boy!"

## "But the pic—" you begin all over

## again.

## Only it's no use. He runs right

## along "and you just mustn't fail

## to hear Miss Rocco-de-Taploca in

## her latest grand opera numbers—"

## So you never do find out what the

## picture is, unless you either accept

## his dare and go to the show, or

## knock him down and sit on him

## while he demands to know the title

## of the photodrama feature.

## However, even though "the play's

## the thing," very much so, at the Cal-

## ifornia this week, being none other

## than a film version of Wallace Ir-

## win's snappy little story, "The

## Blooming Angel," yet even so there's

## a mighty good excuse for the man-

## ager of that theater exclaiming to

## you over his musical numbers, and

## very particularly that exquisite il-

## lustrative production of Cadman's fan-

## cil Japanese "Sayonara," which con-

## sists so far as spectacle is concerned

## of delicately colored and half-il-

## lustrative tableaux and poignant par-

## ticipated in by some twenty persons.

## These viewed through the sheer of

## silver gauze produce the effect of

## some wonderful dream.

## The music itself devolves on Mr.

## Cadman, playing the piano, on the

## orchestra, and on the vocalists who

## also are a part of the exquisite pag-

## nant. These singers are Ruth Beverly

## Cunningham and Ewart Williams, both

## of whom sang in spellbinding fash-

## ion. Clark Marshall, as reader, was

## pleasing in character.

## In fact, Conductor Williams' bat-

## ton this week turns itself into a mag-

## ic wand, the first wave of which

## sets one into a joyous fairland of

## pleasing entertainment. "The Bloom-

## ing Angel," with delightful Madge

## Kennedy in the name part, has been

## capitalized by goldwyn, and adroitly

## placed on the screen by Victor Scherzinger. The story,

## you remember, is about an audacious

## young co-ed at a fresh-water col-

## lege, who as a "disturbing element,"

## is put out of school, after she has

## turned the heads of all the young

## men, and in particular that of one,

## Chester Framm, who runs a laundry

## to pay his college expenses.

## After her aunt refuses to be re-

## sponsible for her, she returns to col-

## lege, becomes the bewildered young

## Chester into a young man, and

## starts a beauty shop for the sale of

## "Angel Bloom" for the complexion;

## gets an elephant which she paints

## pink to act as an advertising med-

## ium, is arrested when the elephant

## faints in the street, and coaxes the

## judge into lending her money with

## which to advertise.

## The audience was hilarious over

## the various comic antics of the

## heroine. Fat O'Brien is Chester

## Framm to the life, and all the parts

## are well played including those done

## by Maxey Williams, Arthur Hous-

## man, Robert Chandler, Vera Lewis,

## B. P. Blinn, and Billy Courtright.

## With "Haunted Spooks," Harold

## Lloyd arrives among the top-notch

## comedy makers; that is, if he wasn't

## already there. The comedy kept the

## house in an uproar. Mildred Davis,

## his new leading woman, continues to

## be the alluring cutie in comedy.

## The picture is interesting but not

## significant.

## The picture is interesting but not

## significant.

## The picture is interesting but not

## significant.

## The picture is interesting but not

## significant.

## The picture is interesting but not

## significant.

## The picture is interesting but not

## significant.

## The picture is interesting but not

## significant.

## REVIEWS.

## OPERA IDEA ENLARGED.

## BIGGER EFFECTS IN KINEMA

## STAGING OF "LUCIA."

## By Edwin Schallert.

## Between Manager Callicott's con-

## densed versions of opera and the

## regulation film entertainment, it

## takes one a while to decide whether

## he wants to go to the Kinema The-

## ater these days as a music or as a

## cinema reviewer. In the end he has

## to endeavor to divide the dif-

## ference between what is purely pic-

## torial and what is chiefly sound to fill

## the role of both.

## Having a sort of peculiar leaning

## toward the operatic in entertain-

## ment, as a matter of entertainment, I

## take pains to indicate the musical

## extent of mentioning first that the

## Kinema has the biggest and best

## show they have yet attempted in

## the production of the picture, "The

## Blooming Angel." It isn't

## so much the rather feeble chorus—

## the general ensemble and effect

## that puts the excerpt from Don-

## izetti's "Lucia" in such a popular

## place before the public as the fact

## that Mr. Callicott has really

## discovered a very excellent soprano,

## whose name is not so familiar as

## the name of the picture, but who

## at the moment is in the

## house, and whose name is not so

## familiar as the name of the picture,

## but who at the moment is in the

## house, and whose name is not so

## familiar as the name of the picture,
